

MAIA

Mapping and Assessment for
Integrated ecosystem Accounting

Since the beginning of MAIA: get to know us!

MAIA aims to promote the mainstreaming of Natural Capital Accounting in EU Member States and Norway. We use the United Nations System of Environmental Economic Accounting – Experimental Ecosystem Accounting (SEEA-EEA) as the methodological basis for Natural Capital Accounting (NCA).

Let's take a look at MAIA's most significant highlights

MAIA engaged with national and EU stakeholders during the 2019 meeting with the KIP-INCA project.

MAIA held its first webinar on "Introduction and Update on Ecosystem Accounting" on 26 October 2020.

The session turned out very successfully as it gathered 70 attendants from 19 countries.

There were representatives from various backgrounds such as academia, ministers, environmental agencies and consulting companies.

Refined Systems of National Accounts and Experimental Ecosystem Accounting Versus the Simplified Agroforestry Accounting System: Testing in Andalusian Holm Oak Open Woodlands

Authors: P. Campos, A. Alvarez, B. Mesa, J. L. Oviedo, P. Ovando, A. Caparros

Status: Published

Year: 2020

Journal: Forests

Volume/Issue: 11. no 4

Publisher: MDPI

Pages: 393

URL/DOI: <https://doi.org/10.3390/f11040393>
